

DO NOT USE FOR COLOR MATCHING

This digital color chart is to be used for approximations of our metal colors only.

It is intended to be viewed on a computer monitor. Colors will vary depending on your computer monitor and monitor settings. Please ask for a printed color chart or an actual metal sample for color matching purposes.

Copper Metallic*
Fluropon® 70% PVDF

Burnished Slate
Prime | Ultra

* Copper Metallic available in Fluropon® 70% PVDF only. Contact your sales person for accurate pricing. Copper Metallic panels must be installed in the same direction. See directional arrows or stickers provided on your panels. Color variation between orders is normal and not cause for rejection.

† Weathering and appearance variation, including color, sheen, and spangle, is common in non-painted materials and is not a cause for rejection. For consistent appearance, choose a paint-finished product.

Colors on this chart are close representations of actual metal color, limited by printing and viewing conditions. Color matching is optimized for outdoor viewing.

Thrifty 29 Gauge	Our least expensive option.	No	Basic Resistance	Basic Resistance	Basic Coating	NO Rust-Through NO Chalk & Fade 20 Year Paint Adhesion

Panel-Loc Plus™ and Panel-Loc™ feature UL2218 approval for impact resistance and may qualify for a home owner's insurance discount. See your local insurance agent for qualifications.

CentralGuard® provides superior fade resistance.

CentralGuard® combines the durability of ceramic and select inorganic pigments with the strength of a proprietary silicone polyester resin to deliver a durable finish, no matter the weather.

- Ceramic pigments are practically unaffected by acid rain and pollution.
- They resist color fade even in the most hostile environments.
- Silicone polyester resin resist dirt, staining and abrasion.
- Excellent fade and chalk resistance.
